

BSF ASI Steno & HCM Exam 2026

Head Constable (Ministerial) & ASI (Stenographer) - Written Exam

ENGLISH

All 9 Shifts · 01-18 September 2026 · Official Answer Key

About this Booklet

This booklet reproduces the BSF ASI (Stenographer) and Head Constable (Ministerial) 2026 written examination exactly as it appeared to candidates, reconstructed from the official response sheets published by the Border Security Force. Every question carries its official answer, highlighted in green. Six sections - General Intelligence, Numerical Aptitude, Basic Computer Knowledge, Clerical Aptitude, English Language and Hindi Language - 20 questions each, 120 in all. There is no negative marking in this examination. This sectional compilation gathers every English language question from all 9 shifts of the examination. The English language section is set in one language only, so there is a single file for it.

✓ Correct option (highlighted green)

Shifts in this Booklet

1	01/09/2026 9:00 AM - 11:00 AM · 20 Q	4	02/09/2026 1:00 PM - 4:00 PM · 20 Q	7	03/09/2026 1:00 PM - 4:00 PM · 20 Q
2	01/09/2026 1:00 PM - 4:00 PM · 20 Q	5	02/09/2026 5:00 PM - 6:40 PM · 20 Q	8	18/09/2026 9:00 AM - 10:40 AM · 20 Q
3	02/09/2026 9:00 AM - 11:00 AM · 20 Q	6	03/09/2026 9:00 AM - 11:00 AM · 20 Q	9	18/09/2026 1:00 PM - 2:40 PM · 20 Q

How to use

- Use the **Shifts** list above to jump straight to any shift.
- The correct answer is highlighted in green with a tick.
- The full **Answer Key** grid is at the end of the booklet.

01/09/2026 9:00 AM - 11:00 AM | English language

20 questions

Q1 01/09/2026 9:00 AM - 11:00 AM | English language

A part of the given sentence has been underlined. Choose the option which best replaces the underlined text with the correct idiom. The manager refused to compromise and decided to stick rigidly to his decision despite strong opposition .

- A. pass the buck
- B. stand his ground** ✓
- C. sit on the fence
- D. throw cold water

Q2 01/09/2026 9:00 AM - 11:00 AM | English language

His account of the incident was succinct, offering only the essential facts. Choose the correct antonym for 'succinct'.

- A. graceful
- B. concise
- C. verbose** ✓
- D. significant

Q3 01/09/2026 9:00 AM - 11:00 AM | English language

In the question given below, a part of the sentence has been underlined. Choose the option which best replaces the underlined text with the correct idiom. The sudden resignation of the CEO revealed the hidden problems within the organisation .

- A. let sleeping dogs lie
- B. opened a can of worms** ✓
- C. crossed the Rubicon
- D. spilled the beans

Q4 01/09/2026 9:00 AM - 11:00 AM | English language

Which option correctly converts the given sentence into passive voice without changing its meaning? Sheeba can buy some vegetables from the market tomorrow.

- A. Some vegetables could buy Sheeba from the market tomorrow.
- B. Some vegetables can be buying from the market by Sheeba tomorrow.
- C. Some vegetables can be bought from the market by Sheeba tomorrow.** ✓
- D. Some vegetables are bought from the market by Sheeba tomorrow.

Q5 01/09/2026 9:00 AM - 11:00 AM | English language

Convert the following sentence from Active to Passive Voice. The editor rejected the article due to factual inaccuracies.

- A. The article is rejected due to factual inaccuracies.
- B. The article had been rejected due to factual inaccuracies.
- C. The article rejected due to factual inaccuracies by the editor.
- D. The article was rejected due to factual inaccuracies by the editor.** ✓

Q6 01/09/2026 9:00 AM - 11:00 AM | English language

The given sentence has an error. Select the appropriate option to rectify the error. The more harder you work, the more successful you become.

- A. The more hard you work, the more successful you become.
- B. The hardest you work, the more successful you become.
- C. The harder you work, the more successful you become.** ✓
- D. The harder you work, the most successful you become.

Q7 01/09/2026 9:00 AM - 11:00 AM | English language

A sentence is divided into different segments (PQRS). The first segment is fixed. Rearrange the other segments to form a coherent sentence. Fixed segment: The scientist, intrigued by the complex patterns, P: developed an algorithm Q: that could predict climate anomalies R: and driven by years of meticulous research, S: to analyze massive data sets

- A. PSQR
- B. QPSR
- C. RPSQ** ✓
- D. QSRP

Q8 01/09/2026 9:00 AM - 11:00 AM | English language

Choose the correct one-word substitution for the given description. Historians describe the empire's collapse as a result of gradual moral and social decline .

- A. Resilience
- B. Decadence** ✓
- C. Revolution
- D. Renaissance

Q9 01/09/2026 9:00 AM - 11:00 AM | English language

Fill in the blank with the indirect speech for the given sentence from the following options:- He said, "Little did I realise that the consequences would be so severe." He said that _____.

- A. little did he realise that the consequences would be so severe.
- B. little he realised that the consequences would be so severe.
- C. he has realised little that the consequences would be so severe.
- D. little had he realised that the consequences would be so severe. ✓

Q10 01/09/2026 9:00 AM - 11:00 AM | English language

Choose the most appropriate antonym of the underlined word from the options given below. The speech had a solemn tone.

- A. goofy ✓
- B. somber
- C. vibrant
- D. musical

Q11 01/09/2026 9:00 AM - 11:00 AM | English language

Choose the correct form of indirect speech for the given sentence from the following options: The teacher said to the students, "Submit your assignments by Monday."

- A. The teacher asked the students to submit their assignments by Monday. ✓
- B. The teacher said that submit your assignments by Monday.
- C. The teacher told that they should submit their assignments by Monday.
- D. The teacher asked the students that they submit their assignments by Monday.

Q12 01/09/2026 9:00 AM - 11:00 AM | English language

Identify the segment of the sentence that contains an error and choose the option corresponding to it. The structural engineers confidently predict that the newly constructed bridge will have been standing strong even if the city experiences a severe earthquake next year.

- A. will have been standing strong even if the ✓
- B. The structural engineers confidently
- C. city experiences a severe earthquake next year
- D. predict that the newly constructed bridge

Q13 01/09/2026 9:00 AM - 11:00 AM | English language

The following sentence has been divided into parts. One of them contains an error. The parts are given as options with some changes. Select the option that correctly rectifies the error. They didn't/ knew the/ answer to/ the question.

- A. answer in
- B. an question.
- C. know the ✓
- D. They doesn't

Q14 01/09/2026 9:00 AM - 11:00 AM | English language

Choose the option that can be used as a one-word substitute for the highlighted phrase in the sentence. Despite his intelligence, the writer was often labeled as a person who hates mankind .

- A. misogynist
- B. misanthrope ✓
- C. pessimist
- D. philanthropist

Q15 01/09/2026 9:00 AM - 11:00 AM | English language

Identify the error in the given sentence and choose the option that rectifies it. She has a deep knowledges of international relations and global economic trends.

- A. She has a deep knowledges of international relation and global economic trends.
- B. She has a deep knowledges of international relations and global economic trend.
- C. She has a deep knowledge of international relation and global economic trends.
- D. She has a deep knowledge of international relations and global economic trends. ✓

Q16 01/09/2026 9:00 AM - 11:00 AM | English language

Comprehension: Read the passage below and answer the questions that follow: Humans, like all mammals, are warm-blooded and maintain a stable internal temperature through a process called homeostasis, which optimizes survival despite environmental changes. The ideal human body temperature is about 37 °C (98.6 °F), though it can vary due to environmental exposure, hormonal shifts, metabolism, or illness. Temperature regulation is controlled mainly by the hypothalamus, which receives feedback from the nervous and circulatory systems. Pressure-sensitive receptors in blood vessels help monitor conditions, enabling the brain to adjust breathing rate, blood sugar, and metabolism accordingly to maintain balance. Heat loss occurs through reduced muscular activity, perspiration, and blood circulation near the skin surface. It can be minimized by restricting blood flow to the skin, insulating fat layers, clothing, shelter, or external heat sources. Meanwhile, heat production is boosted by shivering, another hypothalamus-driven response. This balance creates a “homeostatic plateau”—the range of temperatures that sustain life. Approaching either extreme triggers negative feedback mechanisms that restore the body to its normal range, ensuring survival and stability. Without these regulatory systems, exposure to extreme heat or cold could rapidly disrupt vital processes, underscoring the importance of thermoregulation in human health and overall survival. SubQuestion No : 16 Q.16 Which of the following would be the most suitable title for the passage?

- A. Comparing Human and Mammalian Body Systems
- B. Human Thermoregulation and Homeostatic Balance** ✓
- C. The Role of the Hypothalamus in Human Biology
- D. Environmental Effects on Human Health

Q17 01/09/2026 9:00 AM - 11:00 AM | English language

Comprehension: Read the passage below and answer the questions that follow: Humans, like all mammals, are warm-blooded and maintain a stable internal temperature through a process called homeostasis, which optimizes survival despite environmental changes. The ideal human body temperature is about 37 °C (98.6 °F), though it can vary due to environmental exposure, hormonal shifts, metabolism, or illness. Temperature regulation is controlled mainly by the hypothalamus, which receives feedback from the nervous and circulatory systems. Pressure-sensitive receptors in blood vessels help monitor conditions, enabling the brain to adjust breathing rate, blood sugar, and metabolism accordingly to maintain balance. Heat loss occurs through reduced muscular activity, perspiration, and blood circulation near the skin surface. It can be minimized by restricting blood flow to the skin, insulating fat layers, clothing, shelter, or external heat sources. Meanwhile, heat production is boosted by shivering, another hypothalamus-driven response. This balance creates a “homeostatic plateau”—the range of temperatures that sustain life. Approaching either extreme triggers negative feedback mechanisms that restore the body to its normal range, ensuring survival and stability. Without these regulatory systems, exposure to extreme heat or cold could rapidly disrupt vital processes, underscoring the importance of thermoregulation in human health and overall survival. SubQuestion No : 17 Q.17 According to the passage, which of the following facts about the ideal human body temperature is correct?

- A. It varies significantly between different individuals.
- B. It is approximately 37°C but can vary due to several factors.** ✓
- C. It remains constant at exactly 37°C regardless of circumstances.
- D. It is primarily determined by environmental temperature.

Q18 01/09/2026 9:00 AM - 11:00 AM | English language

Comprehension: Read the passage below and answer the questions that follow: Humans, like all mammals, are warm-blooded and maintain a stable internal temperature through a process called homeostasis, which optimizes survival despite environmental changes. The ideal human body temperature is about 37 °C (98.6 °F), though it can vary due to environmental exposure, hormonal shifts, metabolism, or illness. Temperature regulation is controlled mainly by the hypothalamus, which receives feedback from the nervous and circulatory systems. Pressure-sensitive receptors in blood vessels help monitor conditions, enabling the brain to adjust breathing rate, blood sugar, and metabolism accordingly to maintain balance. Heat loss occurs through reduced muscular activity, perspiration, and blood circulation near the skin surface. It can be minimized by restricting blood flow to the skin, insulating fat layers, clothing, shelter, or external heat sources. Meanwhile, heat production is boosted by shivering, another hypothalamus-driven response. This balance creates a "homeostatic plateau"—the range of temperatures that sustain life. Approaching either extreme triggers negative feedback mechanisms that restore the body to its normal range, ensuring survival and stability. Without these regulatory systems, exposure to extreme heat or cold could rapidly disrupt vital processes, underscoring the importance of thermoregulation in human health and overall survival. SubQuestion No : 18 Q.18 What can be inferred about the relationship between the nervous and circulatory systems in temperature regulation from the passage?

- A. They only function during extreme temperature conditions.
- B. They are controlled entirely by external environmental factors.
- C. They provide feedback to the hypothalamus for temperature control. 
- D. They work independent of each other.

Q19 01/09/2026 9:00 AM - 11:00 AM | English language

Comprehension: Read the passage below and answer the questions that follow: Humans, like all mammals, are warm-blooded and maintain a stable internal temperature through a process called homeostasis, which optimizes survival despite environmental changes. The ideal human body temperature is about 37 °C (98.6 °F), though it can vary due to environmental exposure, hormonal shifts, metabolism, or illness. Temperature regulation is controlled mainly by the hypothalamus, which receives feedback from the nervous and circulatory systems. Pressure-sensitive receptors in blood vessels help monitor conditions, enabling the brain to adjust breathing rate, blood sugar, and metabolism accordingly to maintain balance. Heat loss occurs through reduced muscular activity, perspiration, and blood circulation near the skin surface. It can be minimized by restricting blood flow to the skin, insulating fat layers, clothing, shelter, or external heat sources. Meanwhile, heat production is boosted by shivering, another hypothalamus-driven response. This balance creates a "homeostatic plateau"—the range of temperatures that sustain life. Approaching either extreme triggers negative feedback mechanisms that restore the body to its normal range, ensuring survival and stability. Without these regulatory systems, exposure to extreme heat or cold could rapidly disrupt vital processes, underscoring the importance of thermoregulation in human health and overall survival. SubQuestion No : 19 Q.19 Which of the following options best summarises the passage?

- A. Humans maintain a body temperature of 37°C through the hypothalamus, which controls heat loss and production mechanisms, creating a homeostatic plateau essential for survival. 
- B. Human body temperature varies greatly depending on environmental conditions, and therefore it requires constant medical monitoring.
- C. Homeostasis is a complex process that scientists are still trying to understand completely.
- D. The hypothalamus is the most important organ in the human body because it controls the temperature of the human body better than in other mammals.

Q20 01/09/2026 9:00 AM - 11:00 AM | English language

Comprehension: Read the passage below and answer the questions that follow: Humans, like all mammals, are warm-blooded and maintain a stable internal temperature through a process called homeostasis, which optimizes survival despite environmental changes. The ideal human body temperature is about 37 °C (98.6 °F), though it can vary due to environmental exposure, hormonal shifts, metabolism, or illness. Temperature regulation is controlled mainly by the hypothalamus, which receives feedback from the nervous and circulatory systems. Pressure-sensitive receptors in blood vessels help monitor conditions, enabling the brain to adjust breathing rate, blood sugar, and metabolism accordingly to maintain balance. Heat loss occurs through reduced muscular activity, perspiration, and blood circulation near the skin surface. It can be minimized by restricting blood flow to the skin, insulating fat layers, clothing, shelter, or external heat sources. Meanwhile, heat production is boosted by shivering, another hypothalamus-driven response. This balance creates a "homeostatic plateau"—the range of temperatures that sustain life. Approaching either extreme triggers negative feedback mechanisms that restore the body to its normal range, ensuring survival and stability. Without these regulatory systems, exposure to extreme heat or cold could rapidly disrupt vital processes, underscoring the importance of thermoregulation in human health and overall survival. SubQuestion No : 20 Q.20 In the passage, what is the antonym of the word "extreme" as used in the context of temperature conditions?

A. Moderate

B. Typical

C. Average

D. Rabid

01/09/2026 1:00 PM - 4:00 PM | English language

20 questions

Q21 01/09/2026 1:00 PM - 4:00 PM | English language

Identify the incorrect segment and select the option that provides the correct version. I usually wakes up / at seven / and have breakfast / by 8 o'clock.

A. at seventh

B. by 8 o'clocks

C. I usually wake up

D. and having breakfast

Q22 01/09/2026 1:00 PM - 4:00 PM | English language

Choose the most appropriate antonym of the underlined word from the options given below. The forest fire spread with alacrity .

A. abundance

B. reluctance

C. promptness

D. conveyance

Blackbook Vocabulary — Now in the App!

Download Now on Google Play

Q23 01/09/2026 1:00 PM - 4:00 PM | English language

Fill in the blanks with the direct speech for the given sentence from the following options: The officer ordered the soldier to stand at attention. The officer said to the soldier, "_____"

- A. Stand at attention. ✓
- B. You stand at attention.
- C. Stood at attention.
- D. You must stand at attention.

Q24 01/09/2026 1:00 PM - 4:00 PM | English language

Select the option that has the same meaning as the highlighted phrase in the given sentence. A person who is indifferent to pleasure or pain and has great self-control.

- A. ascetic
- B. epicurean
- C. stoic ✓
- D. hedonist

Q25 01/09/2026 1:00 PM - 4:00 PM | English language

Select the option that rectifies the sentence by replacing the underlined word. If anyone leaves their belongings behind, they should collect it from the office.

- A. him
- B. us
- C. her
- D. them ✓

Q26 01/09/2026 1:00 PM - 4:00 PM | English language

Select the most appropriate proverb to substitute the underlined group of words in the given sentence. The junior employee refused to accept guidance from experienced colleagues, forgetting that wisdom often comes from those who have faced similar challenges before .

- A. a rolling stone gathers no moss
- B. practice makes perfect
- C. every cloud has a silver lining
- D. experience is the best teacher ✓

Q27 01/09/2026 1:00 PM - 4:00 PM | English language

Rectify the underlined part of the following sentence by choosing the correct proverb. If the sentence is free from error, choose 'no substitution required'. Jonathan has changed jobs and cities nearly every year and refuses to settle—truly, a rolling stone picks up moss.

- A. no substitution required
- B. eventually loses
- C. never leaves
- D. gathers no ✓

Q28 01/09/2026 1:00 PM - 4:00 PM | English language

Choose the correct form of the direct speech for the given sentence from the following options: The scientist remarked that if the data were accurate, the theory would prove correct.

- A. The scientist said, "If the data had been accurate, the theory would have proved correct."
- B. The scientist said, "If the data are accurate, the theory will prove correct." ✓
- C. The scientist said, "If the data were accurate, the theory would prove correct."
- D. The scientist said, "If the data is accurate, the theory will prove correct."

Q29 01/09/2026 1:00 PM - 4:00 PM | English language

Select the option that expresses the given sentence in active voice. The announcement will be made by the director shortly.

- A. The director has made the announcement shortly.
- B. The director will make the announcement shortly. ✓
- C. The director made the announcement shortly.
- D. The director makes the announcement shortly.

Q30 01/09/2026 1:00 PM - 4:00 PM | English language

Select the most appropriate option that can be used as a one-word substitute for the highlighted segment in the given sentence. The government announced a/an general pardon for all political prisoners .

- A. amnesty ✓
- B. acquittal
- C. abdication
- D. reprieve

Q31 01/09/2026 1:00 PM - 4:00 PM | English language

Identify the error in the given sentence and choose the option which rectifies it. Wow! The proposal was rejected unanimously by the review committee due to ethical concerns.

- A. Bravo! The proposal was rejected unanimously by the review committee due to ethical concerns.
- B. Hurrah! The proposal was rejected unanimously by the review committee due to ethical concerns.
- C. Alas! The proposal was rejected unanimously by the review committee due to ethical concerns. ✓
- D. Yippee! The proposal was rejected unanimously by the review committee due to ethical concerns.

Q32 01/09/2026 1:00 PM - 4:00 PM | English language

Choose the most appropriate antonym of the underlined word from the options given below. The scientist provided a plentiful supply of samples.

- A. copious
- B. prudent
- C. blunt
- D. meager ✓

Q33 01/09/2026 1:00 PM - 4:00 PM | English language

In the given question, a statement divided into different segments is given. Rearrange all the segments to form a coherent statement. (A) carefully under the bright warm sun (B) of small colorful flowers along (C) the pathway and then he watered them (D) the gardener planted a row

- A. DCBA
- B. DBCA ✓
- C. ABCD
- D. ACBD

Q34 01/09/2026 1:00 PM - 4:00 PM | English language

The following sentence has been divided into parts. One of them contains an error. The parts are given as options with some changes. Select the option that correctly rectifies the error. They is planning / a trip to / the mountains / this week.

- A. this weeks.
- B. They are planning ✓
- C. a trip too
- D. the mountain

Q35 01/09/2026 1:00 PM - 4:00 PM | English language

Convert the following sentence from Active to Passive Voice. They had completed the bridge before the monsoon began.

- A. The bridge had been completed before the monsoon began. ✓
- B. The bridge was completed before the monsoon began.
- C. The bridge has been completed before the monsoon began.
- D. The bridge is completed before the monsoon began.

Q36 01/09/2026 1:00 PM - 4:00 PM | English language

Comprehension: Read the given passage and answer the questions that follow. A microwave oven cooks food using microwave radiation generated by a magnetron. This "crossed-field" device employs perpendicular electric and magnetic fields. An electric field applied to a heated central cathode releases electrons through thermionic emission. The magnetic field curves their paths, causing them to pass the resonant cavities in a cylindrical anode. This interaction produces electromagnetic waves at microwave frequencies, which are directed into the cooking chamber. Inside the oven, microwaves penetrate several centimeters into the food, exciting water molecules and causing them to vibrate. This molecular motion produces heat, rapidly cooking the food from within. Water-rich foods heat especially efficiently because water molecules strongly absorb microwave energy. Microwave cooking is highly energy-efficient: the radiation is directly converted into heat inside the food, reducing energy loss. In contrast, conventional ovens first heat the air, which then transfers heat to the food, leading to slower cooking. This direct heating method enables faster and more uniform results, making the microwave oven a staple for quick and efficient meal preparation. Its design ensures both speed and reduced energy consumption compared to traditional cooking technologies. SubQuestion No : 16 Q.16 Which of the following would be the most suitable title for the passage?

- A. The History of Kitchen Appliances
- B. The Science of Electromagnetic Radiation
- C. Comparing Different Cooking Methods
- D. How Microwave Ovens Work ✓

Q37 01/09/2026 1:00 PM - 4:00 PM | English language

Comprehension: Read the given passage and answer the questions that follow. A microwave oven cooks food using microwave radiation generated by a magnetron. This "crossed-field" device employs perpendicular electric and magnetic fields. An electric field applied to a heated central cathode releases electrons through thermionic emission. The magnetic field curves their paths, causing them to pass the resonant cavities in a cylindrical anode. This interaction produces electromagnetic waves at microwave frequencies, which are directed into the cooking chamber. Inside the oven, microwaves penetrate several centimeters into the food, exciting water molecules and causing them to vibrate. This molecular motion produces heat, rapidly cooking the food from within. Water-rich foods heat especially efficiently because water molecules strongly absorb microwave energy. Microwave cooking is highly energy-efficient: the radiation is directly converted into heat inside the food, reducing energy loss. In contrast, conventional ovens first heat the air, which then transfers heat to the food, leading to slower cooking. This direct heating method enables faster and more uniform results, making the microwave oven a staple for quick and efficient meal preparation. Its design ensures both speed and reduced energy consumption compared to traditional cooking technologies. SubQuestion No : 17 Q.17 According to the passage, what explains why microwave cooking is more energy-efficient than conventional cooking?

- A.** Microwave radiation is directly converted into heat inside the food. 
- B.** Microwave ovens have better insulation than conventional ovens.
- C.** Microwaves cook food at higher temperatures.
- D.** Microwave ovens use less electricity than conventional ovens.

Q38 01/09/2026 1:00 PM - 4:00 PM | English language

Comprehension: Read the given passage and answer the questions that follow. A microwave oven cooks food using microwave radiation generated by a magnetron. This "crossed-field" device employs perpendicular electric and magnetic fields. An electric field applied to a heated central cathode releases electrons through thermionic emission. The magnetic field curves their paths, causing them to pass the resonant cavities in a cylindrical anode. This interaction produces electromagnetic waves at microwave frequencies, which are directed into the cooking chamber. Inside the oven, microwaves penetrate several centimeters into the food, exciting water molecules and causing them to vibrate. This molecular motion produces heat, rapidly cooking the food from within. Water-rich foods heat especially efficiently because water molecules strongly absorb microwave energy. Microwave cooking is highly energy-efficient: the radiation is directly converted into heat inside the food, reducing energy loss. In contrast, conventional ovens first heat the air, which then transfers heat to the food, leading to slower cooking. This direct heating method enables faster and more uniform results, making the microwave oven a staple for quick and efficient meal preparation. Its design ensures both speed and reduced energy consumption compared to traditional cooking technologies. SubQuestion No : 18 Q.18 What can be inferred about water-rich foods from the information given in the passage?

- A.** They cook more slowly than dry foods in microwaves.
- B.** They cannot be cooked properly in conventional ovens.
- C.** They require special microwave settings.
- D.** They heat more efficiently and quickly in microwave ovens. 

Q39 01/09/2026 1:00 PM - 4:00 PM | English language

Comprehension: Read the given passage and answer the questions that follow. A microwave oven cooks food using microwave radiation generated by a magnetron. This "crossed-field" device employs perpendicular electric and magnetic fields. An electric field applied to a heated central cathode releases electrons through thermionic emission. The magnetic field curves their paths, causing them to pass the resonant cavities in a cylindrical anode. This interaction produces electromagnetic waves at microwave frequencies, which are directed into the cooking chamber. Inside the oven, microwaves penetrate several centimeters into the food, exciting water molecules and causing them to vibrate. This molecular motion produces heat, rapidly cooking the food from within. Water-rich foods heat especially efficiently because water molecules strongly absorb microwave energy. Microwave cooking is highly energy-efficient: the radiation is directly converted into heat inside the food, reducing energy loss. In contrast, conventional ovens first heat the air, which then transfers heat to the food, leading to slower cooking. This direct heating method enables faster and more uniform results, making the microwave oven a staple for quick and efficient meal preparation. Its design ensures both speed and reduced energy consumption compared to traditional cooking technologies. SubQuestion No : 19 Q.19 Which of the following best summarises the passage?

- A. Water molecules in food readily absorb microwave energy during the cooking process, which explains why certain foods should never be microwaved for safety reasons.
- B. Microwave ovens have become the most popular kitchen appliances worldwide because they cook food significantly faster than any other cooking method available.
- C. Microwave ovens use magnetrons to generate microwaves that directly heat food by exciting water molecules, making them more energy-efficient than conventional ovens. ✓
- D. The magnetron device in microwave ovens creates powerful electromagnetic radiation that can be extremely dangerous if the oven is not properly maintained.

Q40 01/09/2026 1:00 PM - 4:00 PM | English language

Comprehension: Read the given passage and answer the questions that follow. A microwave oven cooks food using microwave radiation generated by a magnetron. This "crossed-field" device employs perpendicular electric and magnetic fields. An electric field applied to a heated central cathode releases electrons through thermionic emission. The magnetic field curves their paths, causing them to pass the resonant cavities in a cylindrical anode. This interaction produces electromagnetic waves at microwave frequencies, which are directed into the cooking chamber. Inside the oven, microwaves penetrate several centimeters into the food, exciting water molecules and causing them to vibrate. This molecular motion produces heat, rapidly cooking the food from within. Water-rich foods heat especially efficiently because water molecules strongly absorb microwave energy. Microwave cooking is highly energy-efficient: the radiation is directly converted into heat inside the food, reducing energy loss. In contrast, conventional ovens first heat the air, which then transfers heat to the food, leading to slower cooking. This direct heating method enables faster and more uniform results, making the microwave oven a staple for quick and efficient meal preparation. Its design ensures both speed and reduced energy consumption compared to traditional cooking technologies. SubQuestion No : 20 Q.20 In the passage, what is the antonym of the word "conventional" as used in the context of ovens?

- A. Standard
- B. Innovative
- C. Modern ✓
- D. Traditional

02/09/2026 9:00 AM - 11:00 AM | English language

20 questions

Q41 02/09/2026 9:00 AM - 11:00 AM | English language

Parts of a sentence are given below in jumbled order. While the first part is in its correct position, the rest are jumbled up. Arrange parts P, Q, R, and S in the correct order to form a meaningful sentence. The unexpected audit (P) localized panic among the senior staff (Q) triggered an unprecedented (R) landscape, causing widespread though (S) shift in the company's regulatory

- A. RPQS
- B. PQSR
- C. QSRP ✓
- D. QRSP

Q42 02/09/2026 9:00 AM - 11:00 AM | English language

A. library

B. gallery

C. museum

D. laboratory

Q56 02/09/2026 9:00 AM - 11:00 AM | English language

Comprehension: Read the extract carefully and answer the questions that follow. Exiting the station, I woke up the driver of a horse-drawn carriage. In those days Sawai Madhopur (SM) boasted few motorised vehicles. The town wasn't prosperous. Numerous taxi-jeps and buses taking tourists into the park were still figments of shiny future ambition. Garish hotel chains were yet to sprout, mushrooming along newly surfaced roads to the park. This was a town, sprawled untidily around the railway track, the only reason for its existence. Since then, local painters have decorated the station walls. Now murals of our tigers and other wildlife engage curious passers-by, increasing awareness like a kind of open-air art museum. Back in 1976, we trotted off to the only guesthouse nearby. A reluctant proprietor prised open a musty room. I spent a sleepless night. Next morning, I introduced myself to Fateh, the wildlife warden for the park. He looked over his luxuriant moustache disbelievingly at me and my camera. No one came here, he told me, to 'visit'. Jolting along dirt tracks, we drove out towards the reserve. Slowly the wilderness took over. I scanned the forest for wildlife, unaware my tracking skills would take years to develop. SubQuestion No : 16 Q.16 What central theme is explored in the passage?

A. The dangers of travelling through forests even broad daylight.

B. The delayed development of tourism and urban expansion.

C. Change from ordinary life to a deep connection with nature.

D. The challenges of working as a wildlife photographer.

Q57 02/09/2026 9:00 AM - 11:00 AM | English language

Comprehension: Read the extract carefully and answer the questions that follow. Exiting the station, I woke up the driver of a horse-drawn carriage. - C. To prepare with great caution.
- D. To wait for the right opportunity.

Q76 02/09/2026 1:00 PM - 4:00 PM | English language

Comprehension: Read the extract carefully and answer the questions that follow. For some cultures the wolf is an animal of great wisdom, revered as a spiritual guide; this is often distorted by modern wolf enthusiasts to make wolves seem otherworldly and unreal. Their view holds the wolf in great esteem, but often does so at the expense of recognition of its place in our ecosystem. Biologists, ecologists and zoologists, study how humans affect wolves and vice versa, which is very important for the conservation of this species. But scientists can't get too close to the wild animals without dramatically influencing and altering natural pack behaviour. Much research is therefore conducted remotely with the use of technology such as camera traps, 'howl boxes' and tracking devices such as radio collars. The body of knowledge produced by scientists continues to expand and enrich our understanding of wolves. But studying wild wolves remotely or from a great distance has limitations in what can be observed, making it very difficult to develop an understanding of the nuances of the wolf's character, individuality, devotion to its family, and capacity for communicating emotion and needs. SubQuestion No : 16 Q.16 What central theme is explored in the passage?

- A. The importance of keeping wolves as pets.
- B. The dangers of wolves living close to humans.
- C. Why wolves should never be studied scientifically.
- D. How science tries to remove misconceptions about wolves. ✓

Q77 02/09/2026 1:00 PM - 4:00 PM | English language

Q96 02/09/2026 5:00 PM - 6:40 PM | English language

Comprehension: Read the extract carefully and answer the questions that follow. eSports is the short name for electronic sports, where players play video games against each other with fans watching them. This article discusses whether eSports should be included in the Olympic Games. eSports currently enjoys enormous attention and funding. Last year, the global audience for eSports grew by millions with global revenue for the eSports industry huge and still rising. In many countries, audiences pack stadiums and concert venues to watch teams compete against each other in a range of video game tournaments. People from around the world also watch from the comfort of their homes, thanks to entire channels dedicated to streaming live footage of people playing video games. Fans argue that eSports athletes are athletes in the real sense of the term – citing shooting, archery and dressage as examples of Olympic sports where the skills and talents of individuals are recognised. It takes dexterity, intelligence, reflexes and coolness under pressure to succeed in gaming. eSports athletes are legitimate competitors who happen to wield a joystick. How's that so different from a pole vault? SubQuestion No : 16 Q.16 What can be inferred about the growth of eSports?

A. It is only popular in small online groups.

B. It is declining because people prefer traditional sports.

C. It is increasing rapidly, gaining attention and financial support.

D. It is banned in many countries.

Q97 02/09/2026 5:00 PM - 6:40 PM | English language

- D. The ball caught Anika and threw Seethal.

Q116 03/09/2026 9:00 AM - 11:00 AM | English language

Comprehension: Read the following passage and answer the questions given below. Deep within the eastern coast of India lies Haridarpur, a coastal town once known for its vibrant fishing community and lively beachfront markets. For generations, families depended on the sea, venturing out at dawn and returning with baskets filled with fresh catch. However, in the past few decades, rising sea levels and increased coastal erosion began threatening the shoreline. Many homes were damaged, fishing routes changed unpredictably, and the marketplace gradually lost its earlier charm. A significant shift occurred when a marine biologist named Dr. Kavita Sen arrived to study the declining fish population. Instead of limiting her work to research, she collaborated with local fishermen to introduce sustainable fishing techniques and conservation practices. She encouraged them to avoid overfishing, protect breeding zones, and use eco-friendly nets that reduced damage to marine life. Local youth groups soon joined the initiative, conducting regular beach clean-ups and awareness drives. Over time, Haridarpur witnessed steady recovery. Fish populations began to stabilize, tourists returned to enjoy the cleaner beaches, and the community regained confidence in its future. Today, Haridarpur stands as a powerful reminder that environmental responsibility and collective effort can restore even the most fragile ecosystems. SubQuestion No : 16 Q.16 Who helped introduce sustainable fishing practices?

- A. A group of travelling merchants
- B. A foreign investor promoting seafood exports
- C. A marine biologist named Dr. Kavita Sen ✓
- D. A politician launching a tourism project

- D. broken the ice

Q136 03/09/2026 1:00 PM - 4:00 PM | English language

Comprehension: Read the given passage and answer the questions that follow. High in the isolated valleys of the Rila Mountains lies the village of Velinora, a settlement known for its enduring traditions and remarkable sense of unity. For centuries, its inhabitants lived in harmony with the rugged landscape, relying on terraced farming, mountain herbs, and seasonal trade with neighbouring regions. Although modern roads have recently connected Velinora to larger towns, many of its ancestral customs continue to thrive. Every winter, villagers prepare for the Festival of Ember Lights, a celebration believed to ward off misfortune and welcome renewed strength for the coming year. Families gather to craft lanterns from polished wood and tinted glass, illuminating the snow-covered paths with warm, flickering glows. The festival also signals a time for community reflection, where elders share stories of past hardships and triumphs to remind younger generations of the resilience that defines them. In recent years, environmental researchers have taken interest in Velinora's sustainable farming terraces and traditional water-channel systems, noting their potential for modern climate-resilient agriculture. Though small in size, the village stands as a testament to how heritage, wisdom, and communal effort can shape a meaningful and enduring way of life.

SubQuestion No : 16 Q.16 What is the central theme of the passage?

- A. The endurance of tradition and community resilience in Velinora
- B. The challenges faced by researchers in rural settlements
- C. The economic decline of terraced farming in mountain regions
- D. The rapid modernization of a remote mountain village

Q137 03/09/2026 1:00 PM - 4:00 PM | English language

Comprehension: Read the given passage and answer the questions that follow. High in the isolated valleys of the Rila Mountains lies the village of Velinora, a settlement known for its enduring traditions and remarkable sense of unity. For centuries, its inhabitants lived in harmony with the rugged landscape, relying on terraced farming, mountain herbs, and seasonal trade with neighbouring regions. Although modern roads have recently connected Velinora to larger towns, many of its ancestral customs continue to thrive. Every winter, villagers prepare for the Festival of Ember Lights, a celebration believed to ward off misfortune and welcome renewed strength for the coming year. Families gather to craft lanterns from polished wood and tinted glass, illuminating the snow-covered paths with warm, flickering glows. The festival also signals a time for community reflection, where elders share stories of past hardships and triumphs to remind younger generations of the resilience that defines them. In recent years, environmental researchers have taken interest in Velinora's sustainable farming terraces and traditional water-channel systems, noting their potential for modern climate-resilient agriculture. Though small in size, the village stands as a testament to how heritage, wisdom, and communal effort can shape a meaningful and enduring way of life.

SubQuestion No : 17 Q.17 What does the Festival of Ember Lights symbolize?

- A. Completion of the farming cycle and harvest offerings
- B. Protection from misfortune and renewal of strength ☒
- C. Celebration of trade partnerships and mountain herbs
- D. Recognition of researchers studying village practices

Q138 03/09/2026 1:00 PM - 4:00 PM | English language

- A. permanent ✓
- B. vibrant
- C. ornate
- D. striking

Q156 18/09/2026 9:00 AM - 10:40 AM | English language

Comprehension: Read the given passage and answer the questions that follow. The gig economy represents a transformative shift in contemporary labor markets, characterized by short-term, task-based employment mediated largely through digital platforms. Unlike traditional employment structures that emphasize long-term contracts and organizational loyalty, the gig economy prioritizes flexibility, autonomy, and on-demand labor. Platform-based companies such as Uber, Zomato, and Upwork exemplify this model by efficiently matching service providers with consumers through technology. A key strength of the gig economy lies in its ability to enhance labor market efficiency. It lowers entry barriers, enables income diversification, and offers workers greater control over their schedules. For businesses, it reduces operational costs and allows rapid scaling in response to market demand. In developing economies, the gig model has also contributed to employment generation and digital inclusion. Despite these advantages, the gig economy raises serious socio-economic concerns. Gig workers are typically classified as independent contractors, which excludes them from labor protections such as minimum wages, job security, social insurance, and collective bargaining rights. Income volatility, algorithmic management, and power asymmetry between platforms and workers further exacerbate vulnerability. Over time, this may deepen inequality and weaken traditional labor institutions. In essence, while the gig economy reflects innovation and adaptability in the modern economy, its long-term sustainability depends on balanced regulation. Ensuring worker protection without undermining flexibility is crucial for making this evolving labor model equitable and inclusive. SubQuestion No : 16 Q.16 Which assumption most strongly supports the argument that the gig economy improves labor market efficiency?

- A. Governments fully regulate platform-based work
- B. Gig workers prefer unstable income over fixed salaries
- C. Digital platforms can rapidly match labor supply with demand ✓
- D. Traditional jobs are becoming obsolete

Q157 18/09/2026 9:00 AM - 10:40 AM | English language

Choose the antonym for 'reclusive' in this context: Despite his reclusive tendencies that kept him isolated, he eventually became sociable and sought out company.

- A. tactful
- B. passive
- C. docile
- D. sociable ✓

Q176 18/09/2026 1:00 PM - 2:40 PM | English language

Comprehension: Read the given extract and answer the questions that follow: In September 1940, four intrepid boys and their dog set out on an escapade near the town of Montignac in France. The boys had always been intrigued by local folklore about a secret tunnel running under the Vézère River, which would lead to hidden treasure buried deep in the woods. As they walked through the forest, their dog, Robot, ran ahead towards a deep depression in the ground, at the bottom of which was a small opening. When the boys saw this, they were convinced that the hole was related to the legend. They removed stones from around the edges with their penknives, then slid cautiously into a narrow, almost vertical shaft which was home to a multitude of bats. The passage took the youngsters fifteen metres down to a dark, underground chamber littered with stalagmites. 'The descent was terrifying,' recalled Jacques Marsal, who was just fourteen at the time, the youngest of the boys. SubQuestion No : 16 Q.16 What is the main theme of the passage?

- A. Friendship tested by a fierce competition
- B. Adventure driven by curiosity and courage ✓
- C. Hard work leading to academic success
- D. Survival during a dangerous natural disaster

Q177 18/09/2026 1:00 PM - 2:40 PM | English language

- A. They were wealthy and famous youths.
- B. They were skilled and trained scientists.
- C. They were careless and rude children.
- D. They were brave and eager explorers. ✓

Q178 18/09/2026 1:00 PM - 2:40 PM | English language

Comprehension: Read the given extract and answer the questions that follow: In September 1940, four intrepid boys and their dog set out on an escapade near the town of Montignac in France. The boys had always been intrigued by local folklore about a secret tunnel running under the Vézère River, which would lead to hidden treasure buried deep in the woods. As they walked through the forest, their dog, Robot, ran ahead towards a deep depression in the ground, at the bottom of which was a small opening. When the boys saw this, they were convinced that the hole was related to the legend. They removed stones from around the edges with their penknives, then slid cautiously into a narrow, almost vertical shaft which was home to a multitude of bats. The passage took the youngsters fifteen metres down to a dark, underground chamber littered with stalagmites. 'The descent was terrifying,' recalled Jacques Marsal, who was just fourteen at the time, the youngest of the boys. SubQuestion No : 18 Q.18 Which modern-day situation best connects with the events in the passage?

- A. Friends exploring an abandoned building together ✓
- B. Students attending a regular school assembly
- C. Players practising for a sports tournament
- D. Families enjoying a picnic in the park
