Comprehension:

Read the passage below and answer the questions that follow.

Reports indicate that India's electric two-wheeler (E2W) market is expected to rebound sharply next fiscal as easing rare-earth magnet supply and strong ownership cost advantages revive demand, even as intensifying competition accelerates consolidation among weaker players. According to Crisil Ratings, E2W volumes are likely to grow 16-18 per cent in FY27, up from an estimated 12-13 per cent in FY26, which was weighed down by temporary disruptions in the supply of rare-earth magnets. The recovery will be driven by improving availability of critical components, particularly rare-earth magnets sourced largely from China, alongside initial efforts by manufacturers to diversify supply chains and localise sourcing. Despite a tapering of government subsidies and slower declines in battery prices, electric two-wheelers continue to enjoy a significant total cost of ownership (TCO) advantage. Running costs for E2Ws remain at about Rs 0.3 per km, compared with Rs 2-2.5 per km for ICE vehicles.

Walking is one of the simplest ways to stay healthy. Just 30 minutes a day can help control weight, improve heart health, and boost mood. Unlike gym workouts, walking does not require any special equipment. Many doctors recommend walking for people of all ages. It is gentle on the joints and can be done almost anywhere — in parks, around the neighbourhood, or even inside large buildings. Walking with family or friends can also be fun and a chance to chat. Even a short daily walk can reduce stress and help us sleep better. By making walking a habit, we can enjoy both physical and mental benefits. In addition, walking outdoors connects us with nature and offers a refreshing break from screens. Setting small goals, like step counts, can motivate us to stay consistent. Over time, these daily walks can greatly improve overall well-being and quality of life.

गद्यांश के आधार पर निम्नलिखित प्रश्नों के उत्तर दीजिए -

हिंदी को सबसे कड़ा संघर्ष उर्दू से झेलना पड़ा। इसका एक कारण तो यह था कि उर्दू भाषा फारसी भाषा और लिपि से जुड़ी थी। फारसी भाषा एक लम्बे अरसे से मुसलमानों के शासन में राजभाषा के रूप में कार्य कर रही थी। अंग्रेजों ने हिन्दू-मुस्लिम जनता में फूट डालने के लिए उर्दू और हिंदी को बाँटना शुरू किया, जबकि भारतीयों ने हिन्दुस्तानी भाषा की वकालत कर हिंदी-उर्दू को एक करने के बहाने हिन्दू-मुस्लिम जनता को एक करना चाहा था। महात्मा गाँधी ने भी हिन्दुस्तानी की वकालत की। किन्तु हिंदी को हिन्दुओं की और उर्दू को मुसलमानों की भाषा मान लिया गया था जिससे हिंदुत्व या इस्लाम के प्रति शुद्धतावादी आग्रह रखने वालों ने भी हिन्दुस्तानी का विरोध किया। अंग्रेज अपनी चाल में सफल रहे। यह सच्चाई है कि हिंदी-उर्दू का व्याकरण एक है। उनके शब्द भंडार अधिकांशतः समान हैं। अंतर दोनों की लिपियों में है। इन दोनों भाषाओं को एक करने के प्रयास असफल हो गए। हिंदी-उर्दू अधिकांशतः समान शब्द सम्पदा के बावजूद अलग-अलग भाषाओं के रूप में स्वीकृत हैं। 872
