How many really suffer as a result of labor market problems? This is one of the most critical yet contentious social policy questions. In many ways, our social statistics exaggerate the degree of hardship. Unemployment does not have the same dire consequences today as it did in the 1930's when most of the unemployed were primary breadwinners, when income and earnings were usually much closer to the margin of subsistence, and when there were no countervailing social programs for those failing in the labor market. Increasing affluence, the rise of families with more than one wage earner, the growing predominance of secondary earners among the unemployed, and improved social welfare protection have unquestionably mitigated the consequences of joblessness. Earnings and income data also overstate the dimensions of hardship. Among the millions with hourly earnings at or below the minimum wage level, the overwhelming majority are from multiple-earner, relatively affluent families.

In many ways, our social statistics exaggerate the degree of hardship. Unemployment does not have the same dire consequences today as it did in the 1930's when most of the unemployed were primary breadwinners, when income and earnings were usually much closer to the margin of subsistence, and when there were no countervailing social programs for those failing in the labor market. Increasing affluence, the rise of families with more than one wage earner, the growing predominance of secondary earners among the unemployed, and improved social welfare protection have unquestionably mitigated the consequences of joblessness. Earnings and income data also overstate the dimensions of hardship. Among the millions with hourly earnings at or below the minimum wage level, the overwhelming majority are from multiple-earner, relatively affluent families.

**Comprehension:**

दिए गए गद्यांश को पढ़कर नीचे लिखे प्रश्नों के उत्तर दीजिए -

कर्म की शक्ति अपार होती है। व्यक्ति का भविष्य उसके कर्मों पर निर्भर करता है। अच्छे कर्म व्यक्ति को सफलता, सम्मान और आत्मसंतोष प्रदान करते हैं, जबकि बुरे कर्म उसे दुख, पश्चाताप और असफलता की ओर ले जाते हैं। हमारे धर्मग्रंथों में भी कहा गया है - "कर्मण्येवाधिकारस्ते मा फलेषु कदाचन" - अर्थात् मनुष्य का अधिकार केवल कर्म करने में है, फल पर नहीं। जो व्यक्ति ईमानदारी से अपने कर्तव्यों का पालन करता है, वह जीवन में अवश्य सफल होता है। कर्म ही व्यक्ति की पहचान बनाते हैं। एक किसान, एक शिक्षक, एक सैनिक - सभी अपने-अपने कर्मों द्वारा समाज में योगदान देते हैं। कर्मशील व्यक्ति कभी भाग्य के भरोसे नहीं बैठता, बल्कि अपने पुरुषार्थ से भाग्य को बदल देता है।

कभी-कभी परिश्रम का फल तुरंत नहीं मिलता, परंतु सही समय पर उसका परिणाम अवश्य मिलता है। इसलिए निरंतर प्रयास करते रहना ही सच्चा धर्म है। कर्म की शक्ति से व्यक्ति न केवल स्वयं का जीवन बेहतर बना सकता है, बल्कि समाज और देश की उन्नति में भी योगदान दे सकता है। यही कर्म की सच्ची महिमा है।
