 - 3. PYAL
 - 4. PPYA

Q.9 What should come in place of '?' in the given series?
15, 25, 35, ?, 55, 65.

- Ans
- 1. 38
 - 2. 40
 - 3. 48
 - 4. 45

Q.10 Select the set in which the numbers are related in the same way as are the numbers of the following sets.

(NOTE : Operations should be performed on the whole numbers, without breaking down the numbers into its constituent digits. E.g. 13 - Operations on 13 such as adding /deleting /multiplying etc. to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed)
(96,13,436)
(95,8,412)

- Ans
- 1. (90,24,56)
 - 2. (19,91,440)
 - 3. (20,90,44)
 - 4. (26,46,88)

Q.11 Select the option figure that will replace the question mark (?) in the figure given below to complete the pattern.

Ans

- 1.
- 2.
- 3.
- 4.

Q.12 Each of the digits in the number 6541387 is arranged in ascending order from left to right. What will be the sum of the digits which are second from the left and second from the right in the new number thus formed?

- Ans
- 1. 10
 - 2. 8
 - 3. 9
 - 4. 7

Q.13 LY 43 is related to JW 34 in a certain way based on the English alphabetical order. In the same way, VM 19 is related to TK 10. To which of the given options is JU 54 related, following the same logic?

- Ans
- 1. HS 44
 - 2. IR 55
 - 3. IR 40
 - 4. HS 45

Q.14 Read the given statements and conclusions carefully. You have to take the given statements to be true even if they seem to be at variance from commonly known facts. You have to decide which conclusion/s logically follow/s from the given statements.

Comprehension:

Read the given passage carefully and answer the questions that follow.

Electricity has become an essential part of modern life, supporting communication, transportation, and daily comfort. A day without electricity can disrupt routines and highlight human dependence on technology. Without power, homes remain dark, electronic devices stop working, and access to information becomes limited. Students struggle to attend online classes, while offices face delays in completing tasks. Household activities such as cooking, storing food, and pumping water also become difficult. At the same time, people may spend more time talking face to face and observing their surroundings. Such an experience reminds individuals of the value of natural resources and careful energy use. Therefore, a day without electricity reveals both the challenges of modern dependence and the importance of responsible consumption. It also encourages people to appreciate simple living and reduce unnecessary energy waste. Such moments can inspire long-term awareness about sustainable habits.

Comprehension:

Read the given passage carefully and answer the questions that follow.

In the modern world, attention is a valuable resource. Unlike money, you cannot save it for later; it exists only in the moment. Today, institutions ranging from advertisers to schools compete aggressively to capture your focus. This competition has changed how we work, learn, and spend our free time.

Research shows that staying focused helps people understand ideas and stay calm. Sustained and focused cognitive engagement allows you to think more deeply. However, our world is full of interruptions. Phone notifications and digital noise fragment our focus, making it harder to concentrate. This affects schools, where learning risks becoming surface-level rather than reflective.

Many people think losing focus is just a personal failure of discipline. But this ignores the world around us. Work cultures today often require employees to respond to messages the moment they arrive. This expectation normalizes constant distraction. We must reframe attention as a shared responsibility. By redesigning environments that respect our mental limits, we can restore the conditions needed for deep thought. Attention, when protected, is not just a personal asset but a collective cognitive resource essential for everyone.

Read the given passage carefully and answer the questions that follow.

In the modern world, attention is a valuable resource. Unlike money, you cannot save it for later; it exists only in the moment. Today, institutions ranging from advertisers to schools compete aggressively to capture your focus. This competition has changed how we work, learn, and spend our free time.

Research shows that staying focused helps people understand ideas and stay calm. Sustained and focused cognitive engagement allows you to think more deeply. However, our world is full of interruptions. Phone notifications and digital noise fragment our focus, making it harder to concentrate. This affects schools, where learning risks becoming surface-level rather than reflective.

Many people think losing focus is just a personal failure of discipline. But this ignores the world around us. Work cultures today often require employees to respond to messages the moment they arrive. This expectation normalizes constant distraction. We must reframe attention as a shared responsibility. By redesigning environments that respect our mental limits, we can restore the conditions needed for deep thought. Attention, when protected, is not just a personal asset but a collective cognitive resource essential for everyone.

Comprehension:

निम्नलिखित गद्यांश को ध्यानपूर्वक पढ़कर पूछे गए प्रश्नों के लिए सही विकल्प चुनकर लिखें -

'साँच बराबर तप नहीं' सूक्ति में सत्य की महत्ता को स्वीकारा गया है। सच के मार्ग पर चलना अपने आप में तप है। तप का अर्थ है 'तपना'। सच का मार्ग सदैव कँटीला होता है, कठिन होता है। तप करने की ताकत रखनेवाला ही इस पर चल सकता है। तप वही कर सकता है जिसका हृदय साफ, निष्पाप व एकाग्रचित्त हो। सत्य मानव हृदय के गौरव का प्रतीक है। सच बोलनेवाले के मुखपर एक अलग तरह का तेज रहता है, ओज रहता है। ऐसा व्यक्ति निडर होता है व लोगों के दिल में जगह बनाता है। अप्रिय सत्य मनुष्य को कभी नहीं बोलना चाहिए। सत्य-असत्य की परिभाषा अपने आप में कुछ नहीं, परंतु कल्याण के लिए बोला गया झूठ भी सत्य है। सत्य का पालन करने के लिए सत्यवादी हरिशुंद्र अपने पूरे जीवन की तपस्वी की तरह जीने पर मज़बूत हुए। तप और सत्य मिलकर मानव जीवन को विकास की राह पर अग्रसर करते हैं। सत्य की प्राप्ति ही कठोरतम तप है। यह संसार का वह सर्वोत्तम धर्म है जिसके बिना जीवन सारहीन हो जाता है। सत्य अटल है। लाख झूठ भी उसके समक्ष टिक नहीं सकते। झूठ बुलबुले की भाँति है जिसका अस्तित्व क्षणिक है। सच स्थायी है, चिरंतन है। एक सच को छुपाने के लिए बोलने पड़ते हैं और अंत में सौ झूठों का आवरण भेदकर सत्य बाहर निकल आता है। सत्य से व्यक्ति जितना मुँह मोड़ता है वह उतना ही पल-पल में सामने आता है। कठिन अवश्य है तप का मार्ग, परंतु कल्याणकारी है।
