#### Q54 English

Read the following passage carefully and answer the questions based on it.

Golf is a precision sport that combines skill, patience, and strategic thinking, played on a large outdoor course with natural landscapes. The objective is to hit a small ball into a series of holes using as few strokes as possible. Each course is designed with challenges such as sand bunkers, water hazards, and uneven ground, which test the player's control and planning. Unlike many fast-paced sports, golf requires calm focus and careful decision-making before every shot. Players must judge distance, wind direction, and the condition of the ground to perform well. The game is usually played individually, but it also encourages sportsmanship and respect among players. Golf is popular worldwide and is often associated with discipline and mental strength. Learning golf can improve concentration and patience, making it not only a sport but also a valuable life skill that teaches persistence and thoughtful action over time in real life situations.

How is the passage mainly organized?
