Q49 English

Read the given passage carefully and answer the questions that follow.

The Gupta Empire, often regarded as a golden age of ancient India, witnessed remarkable cultural development. During this period, art, literature, science, and philosophy flourished. Sanskrit became the dominant language of literature, and great works such as those by Kalidasa were composed. These writings reflected both artistic excellence and deep understanding of human emotions.

In the field of science, scholars made important contributions to mathematics and astronomy. The concept of zero and advances in the decimal system are often linked to this period. Temples and sculptures created during the Gupta era displayed fine craftsmanship and aesthetic balance, influencing later artistic traditions.

Education also progressed, with institutions like Nalanda becoming centres of learning. These universities attracted scholars from different regions, promoting intellectual exchange.
